Studded finish rubber, noraplan stone

M / B

Artificial stone

M / B / I

Natural stone

M / B / I

Concrete

I

The Micro BRUSH pad maintains its consistently high cleaning performance over large areas and requires only a small amount of cleaning chemicals. Simultaneously, it stands out thanks to its high water absorbing capacity which helps you save time and money. While other pads need to be swapped out or cleaned every once in awhile, the Micro BRUSH Pad just keeps on cleaning.

The **Micro BRUSH Pad** is an effective solution for ensuring basic cleaning, maintenance cleaning and intermediate cleaning over the long term.

### Efficient and affordable:

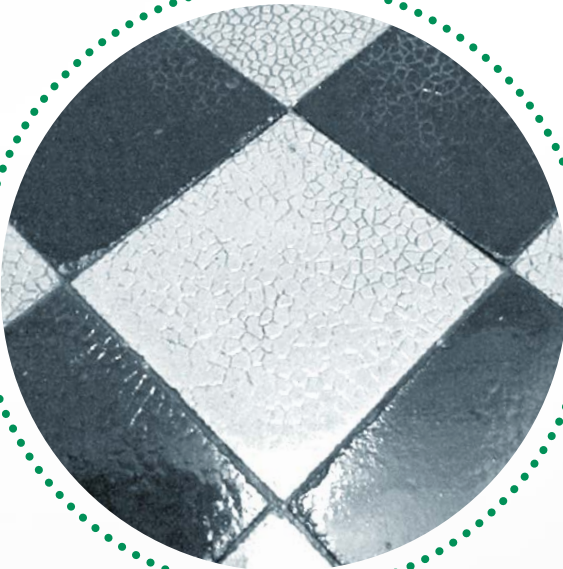

- **Thoroughly cleans large** surfaces
- Excellent scrubbing performance
- High water absorbing capacity
- Low use of cleaning chemicals
- **Significantly longer service life** than comparable pads
- Maximum speed: 300 rpm
- Easy to wash by hand
- Machine wash at 40°C

M: Maintenance cleaning,  
B: Basic cleaning,  
I: Intermediate cleaning

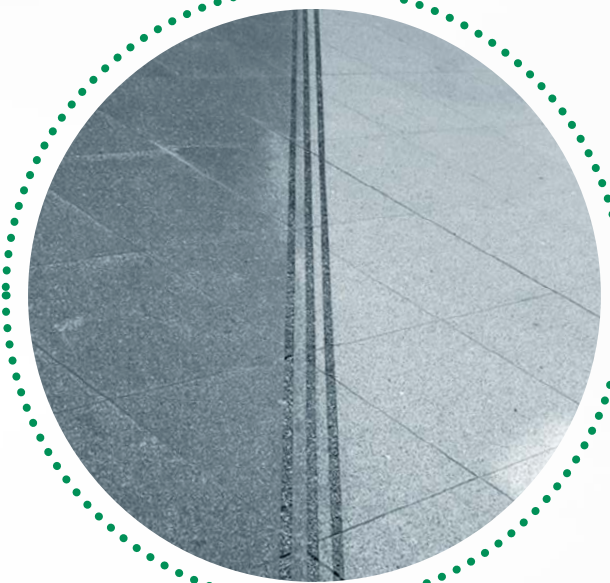

### Full performance without any friction loss

Extremely durable: The Micro BRUSH Pad is significantly more durable than other pads, such as melamine pads.

### Not just clean, but safe too

No nasty surprises: The Micro BRUSH pad cleans does such a thorough job of cleaning that it restores the anti-slip properties of safety tiles.

### Impressive results

Visibly clean: The Micro BRUSH Pad gets deep down in grouting and grooves to remove stubborn, irremovable dirt.

### Far-reaching success

Maintains its consistently high cleaning performance over large areas: Much of the dirt is directly removed by the automatic suction system. Dirt that clings to the pads can easily be washed off by hand.
