

meiko goes blue

Get to know our new, practical and at the same time high-quality cloth series „meiko goes blue“:

The disposable non-woven wipes clean powerfully, can be used universally and are very absorbent. They are completely biodegradable and free of microplastics.

The wipes can be used with disinfectants and other cleaning agents without any problems. They have the same size as standard all-purpose wipes.

100% microplastic free
100% compostable
