4T HighSelect car

The measure of cleanliness

The cleaning trolley series 4T HighSelect car delivers what it promises at first glance: Modern design meets technical innovation. Only high-quality materials are used in the manufacture. A guarantee that all trolleys in the 4T HighSelect car series are particularly solid, unbreakable and stable.

Designed for application areas that demand functionality and style: A reliable, flexible companion, e.g. for the daily cleaning of large office spaces, hotels, on cruise ships and in the spa.

Thanks to its compact, round shape and its manoeuvrability, this cleaning trolley in the 4T HighSelect car series can also be used where small spaces meet high demands.

Very durable and unbreakable:

Material reinforced with glass fibre is processed according to the latest technical methods.

Effortless, efficient and comfortable work thanks to its ergonomic design:

Working with a 4T HighSelect car saves the cleaner time, is easy on their back and requires less physical effort.

Designed & manufactured in Italy

Suitable for all mop versions.

Particularly quiet, very manoeuvrable:

"SilentWheels" with 80mm diameter.

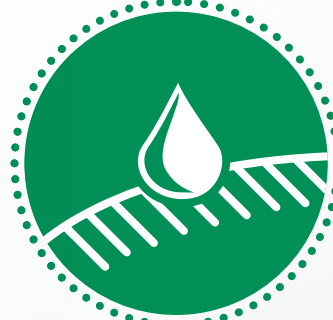

Ergonomically designed:

Easier, effortless work

Simply clean:

Easy&Clean coating is stain resistant and is quick to maintain.

**4T HighSelect car 30
