

Problem: microplastics

Tiny particles of the textile fibers are loosened during each wash. They end up as microplastics in the sea and ultimately in our food chain.

An all-purpose wipe for more cleanliness and less environmental impact

meiko natural & meiko goes **blue** consist of 80 % viscose and 20 % polylactide fibers (PLA).
All raw materials used are:

- ✓ free of microplastics
- ✓ completely biodegradable
- ✓ compostable
